Reasons for allowance

1. This communication is in response to applicant's 08/22/2007 amendment in the application of Takatsu et al. for the "Communication control apparatus and method for searching an Internet Protocol address" filed 02/17/2004. This application claims foreign priority based on the application 2003/121263 filed April 25, 2003 in Japan. The proposed amendment has been entered and made of record. Claim 1, 2, 8-10, 16-18, 22 have been amended. The claims have been amended to better point out and more distinctly claim subject matter comprising the invention.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Mr. H. Daniel Schnurmann (Agent Reg. #35791) on Dec. 04, 2007.

3. The application has been amended as follows:

IN THE CLAIMS:

- I. Claim 19: Cancel
- Claim 20: Cancel
- Claim 21: Cancel

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Claims 1-18, 22 are allowable as evident by applicant's amendment (Claims are renumbered as 1-19 respectively).
6. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or suggest a communication control apparatus, comprising: a storage device for storing search information to determine a subsequent transfer route for a packet received by way of its destination address; and a route search device to search for a transfer route for said packet received based on said search information, wherein said search information is associated with a tree structure, each node in said tree structure having at least one entry, a mask prefix associated with said at least one entry, wherein each entry includes information on the number of bits of said mask prefix associated therewith, and a sort key, and wherein the number of bits of said sort key is set to be greater than or equal to the longest mask length amongst the mask lengths of all said mask prefixes; a bit string divided into an upper side bit string field and a lower side bit string field, wherein the upper side bit string field of each of said sort keys is to match said mask prefix associated with an entry having said sort key wherein entries are assigned to predetermined nodes of said tree structure based on the sort order of their sort keys; each node having an entry list in which multiple entries included therein are sorted based on their sort keys; and each node except leaf nodes are linked via each branch to relate each entry in the

entry list of said node to each node at the next lower hierarchy, as specifically recited in the claims.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
